

A letter to myself

Before leaving....

- 1) What do I expect regarding the new context, new contacts, new experiences, loneliness?
- 2) To what am I looking forward?
- 3) Which challenges and difficulties do I perceive/anticipate?
- 4) Which resources will be useful/advantageous for my outgoing?
- 5) What biographical aspects of your life course can be helpful?
- 6) Do you feel prepared to leave? Or do you prefer to jump into cold water?
- 7) Have you ever experienced a culture shock?
- 8) In which way the corona situation might influence your stay abroad?
- 9) Which strategies will you adopt to manage these challenges?
- 10) Is there a hidden side of your personality or your attitude that could present a difficulty or a challenge to adapt to a new situation, to cultural challenges or unexpected circumstances/social life?
